

Go Green with Systems IV Water Treatment!

Ice Maker Water Treatment

Up to 800
lbs. per day

Up to 1,000
lbs. per day

Up to 2,000
lbs. per day

The new EcoPro series of water treatment not only uses advanced filtration technology, but is manufactured with completely environmentally friendly components. The entire cartridge can be recycled to assist in saving energy and preserving natural resources while not adding to the already over-flowing landfills.

Benefits

- Carbon based filtration
- Scale elimination
- Over 27 ft. of filtration
- Boosts ice maker production to full capacity
- Reduce ice maker service costs
- 30 second cartridge change out
- 5 micron filtration

Systems IV is going green by offering each of our clients an easy to follow program for recycling your expended EcoPro cartridges.

1. Order a replacement cartridge
2. When new cartridge is received, simply put the dry expended cartridge in the box along with a return tag.
3. Ship the expended cartridge to Systems IV and we will recycle the cartridge for you at no cost!

<i>Model</i>	<i>GPM</i>	<i>Fittings</i>	<i>Dimensions</i>	<i>Shipping Weight</i>
Ecolce 800	3.8	1/2" NPT	5.5"W x 33"H	7.25 lbs.
Ecolce 1000	5.5	1/2" NPT	5.5"W x 33"H	10.00 lbs.
Ecolce 2000	7.0	1/2" NPT	5.5"W x 33"H	12.25 lbs.

Systems IV is the only water treatment company to provide CITRYNE® to effectively and safely control hard water and provide quality water to an ice maker. CITRYNE® is a food grade, biodegradable formulation that eliminates scale buildup. With its FDA approved ingredients, CITRYNE® can be used on equipment without having to stop water flow. The CITRYNE® formulation not only removes existing scale buildup, but will eliminate future potential scale buildup.

Scale Control

ScaleGone products continuously dispense the CITRYNE® formulation to neutralize calcium leaving the ice maker "scale free". Adding a ScaleGone unit will efficiently provide a "scale free" ice maker for up to six months. "No Tool" cartridge replacements are available as needed.
